Pool & Spa Tile

GLASS TILE | PORCELAIN | STONE & BRICK | ACCESSORIES

CHOOSE LUXURY CHOOSE MASTER TILE

MasterTile

supplies the finest in swimming pool tile, coping, plaster, and decking products. Since our origin in 1998, Master Tile has been a leader in the introduction of new and innovative products for the swimming pool industry. We import waterline tile from premium manufacturers throughout the world. Our coping lines include kiln-fired clay brick as well as imported natural stones.

We have locations in Houston, Dallas, Oklahoma City, New Jersey, Tampa, Anaheim, and Las Vegas. Through our numerous locations and well-stocked inventory, Master Tile is capable of shipping material directly to customers, anywhere in the U.S., on a daily basis.

Our state-of-the-art showrooms offer our customers an opportunity to manipulate and view their tile and coping selections in a way that will allow them to visualize them on a pool. Master Tile also supplies samples to further assist in the selection process. At Master Tile you can customize the look and feel of your pool with our wide selection of quality tile and coping. We offer a full range of finishes that provide the ideal look for your pool.

From modern glass and durable porcelain to natural stone coping, decking and facades, Master Tile imports the latest trends and only the highest quality materials from around the world.

Master Tile's portfolio offers an endless array of style and color combinations to create an elegant and durable pool finish that is uniquely yours.

About our Glass Tile Products

PLEASE NOTE:

On all glass tiles, pages 5 through 15, there will be variations in color, shade, texture, and size.

Final selection should be made from the actual Glass Tile to be installed. It is recommended that the Consumer inspect their tile before it is installed.

Master Tile recommends for Glass Tile installation that a polymer fortified mortar that meets or exceeds ANSI A 118.15E is used along with a grout that meets or exceeds ANSI A 118.7.

Glass Tile installation should also meet ANSI A 108.16 and ANSI A 108.10 standards. Strict adherence to these guidelines will help insure years of enjoyment from your investment in Master Tile Glass Tile.

About our Stone Products

Natural Stone coping and decking are available in a variety of beautiful colors and various sizes of coping and pavers. They are ideal for interior as well as exterior uses. As with any natural stone, slight imperfections in color, size, and shape are to be expected. We strongly recommend inspection before installation. Use constitutes acceptance.

All Natural Stones must be sealed. Sealing helps to resist freeze thaw spalling and salt water attack. Water penetration may damage travertine in freeze thaw conditions. Buyer must determine that the product's slip resistance and freeze thaw stability is acceptable for their particular outdoor application and climate.

MasterTile supplies 1¼" and 2" thick travertine. Our 1¼" travertine coping offers the elegant look of natural stone at price level comparable to flagstone and brick coping.

Freeze-Thaw Warning:
Not recommended for climates
where severe freeze-thaw
cycles are experienced.

Example of
Riviera Color Range

Natural Slate has a texture and range of color unlike any other natural stone. Slate combines beautifully with other natural materials and is an excellent choice for exterior applications. It is available in a variety of colors and sizes for decking applications. As with any natural stone, expect slight imperfections in size and shape. Wide ranges in color enhance slate's natural beauty, as no two pieces are alike. We strongly recommend inspection before installation. Use constitutes acceptance. Some flaking of slate should be expected after installation. Condition will lessen over time.

BEFORE

AFTER

DIAMOND BRITE[®]

EXPOSED AGGREGATE POOL FINISHES

An exposed aggregate pool finish blended from natural quartz aggregate, polymer modified cement, and non-fading color quartz in a stunning variety of colors. This unique interior pool finish is durable, easy to maintain and comfortable to swimmers' feet.

Cool Breeze

Indigo Blue

Azul

Laguna Blue

Dove Gray

Lagoon

SGM One-Step Spray Deck

Add beauty to concrete decking with this slip resistant, comfortable deck surface. This is the perfect choice for pool and spa decks, walkways, entrances, and driveways.

Desert Sand

Kahlua Crème

See actual samples of Diamond Brite and SGM, before installation.

Depth Markers

Master Tile stocks a complete line of depth marker tiles in both a glazed finish for the water line as well as a non-skid finish for pool decks.

Custom Molded Products

Serveon Sealers

CN100: DENSIFIER-PRO – FOR DECAYING/ERODING STONE ►

Powerful cross-linking silicone consolidation treatment that strengthens and stabilizes soft and friable stone surfaces. Very effective at slowing salt erosion protection for stone, tiles, bricks, paving, concrete and grout.

◀ CS100: CLEARSTEEL – PREVENTS DISCOLORING BLACK ALGAE

Organo-silicon polymer for protecting surfaces from discoloration, odors and possible health issues caused by mold, mildew, fungus and algae. Salt resistant.

NS200: NATURAL STONE SEAL – SALT WATER AND EFFLORESCENCE PROTECTION ►

Natural Stone Seal is a breakthrough, modified silicate water and salt repellent technology sealer that is effective at preventing efflorescence. A cost-effective sealer.

◀ NS800: POROUS PRO PLUS – POROUS STONE AND EFFLORESCENCE PROTECTION

Porous Pro Plus is the only water-based sealer that is water/salt resistant and deep penetrating consolidator that is efflorescence resistant.

RS600: STAIN SAFE – MAXIMUM PROTECTION AGAINST STAINS ►

Maximum performance, solvent based, impregnating sealer formulated for stain resistance. RS600 gives excellent protection from water, oil and alcohol (wine) based stains.

◀ RS800: ULTIMATE ENHANCER

Silicone sealant formulated for color enhancement. RS800 will darken the surface of most stone, pavers and man-made stone leaving a rich natural matte finish. Multiple coats deepen color.

SG100: SLIP RESISTANT GRIPPING ADDITIVE ►

SG100 is a micronized polypropylene additive providing abrasion and non-slip resistance for both solvent and water based acrylic sealants. Blend in container.

◀ WL250: PAVERS ONLY – ACRYLIC WETLOOK HIGH SOLIDS

Wet look, high-solids acrylic sealer formulated for higher traffic areas such as walkways, driveways, garage floors, etc. Ideal for pavers, natural stone, concrete & masonry.

WL350: WETLOOK – LOW SHEEN ►

WetLook is a unique, breathable silicone / acrylic polymer sealer that gives a rich low sheen wet-look. WL350 provides strong stain protection from oils, chlorine and salt instructions.

Be Creative. Be Different. Make it Yours.
